

# IRAO & CONSEQUENCES OF DEPLETED URANIUM

Calvary Church  
300 Massachusetts Avenue, Arlington  
August 7th, 7:30 PM

Major Rokke, PhD., is a veteran of the Vietnam and Gulf Wars and an expert on depleted uranium. Rokke served in the military and the reserves for a total of 35 years. He headed the U.S. Army's Depleted Uranium Project after the 1991 Gulf War.

He will describe the historic context of proposals to use radioactive munitions, dating from 1943, how depleted-uranium weapons work, the problem of contaminated US testing grounds, the current unfolding tragedy, veterans' missing files, denial of care, and what concerned citizens can do to make a difference.
